TO ADVERTISERS.
GEO. P. ROWELL & CO.'S
SELECT LIST
OF
LOCAL NEWSPAPERS.
Many persons suppose this list to be composed of cheap, low-priced newspapers. The fact is quite otherwise. The Catalogue states exactly what the papers are. When the name of a paper is printed in FULL FACE TYPE, it is in every instance the BEST paper in the place. When printed in CAPITALS it is the ONLY paper in the place. When printed in Roman letters it is neither the best nor the only paper, but usually a very good one, notwithstanding. The list gives the population of every town and the circulation of every paper. IT IS NOT A CO-OPERATIVE LIST. IT IS NOT A CHEAP LIST. At the foot of the Catalogue for each State the important towns which are not covered by the list are enumerated. IT IS AN HONEST LIST. The rates charged for advertising are barely one-fifth the publishers' schedule. The price for one inch four weeks in the entire list is \$635. The regular rates of the papers for the same space and time are \$3,120. This list includes 970 newspapers, of which 163 are issued DAILY and 807 WEEKLY. They are located in 243 different cities and towns, of which 52 are State Capitals, 236 places of over 5,000 population, and 444 County Seats. LISTS SENT ON APPLICATION. Address GEO. P. ROWELL & CO.'S NEWSPAPER ADVERTISING BUREAU, 10 Spruce Street (Printing House Sq.), N. Y.
\$67 A DAY to Agents canvassing for the Free Press. Address P. O. VICKER, Augusta, Maine.

Las Vegas Gazette.

J. H. KOOGLER, Editor.

President Hayes will visit Chicago.

The Denver Mirror is an advocate of women suffrage.

Mackenzie is the man expected to pick a fight with Mexico.

A number of Texas papers are advocating a division of that state.

Texans are bragging of the largest cotton crop ever gathered in that state.

Colorado produces this year more wheat to the acre than any other state in the Union.

The Nation thinks Kearney is the lowest type of demagogue that has appeared in history.

Wonder if General Sherman is in New Mexico because a war with old Mexico is threatened?

A fresh quarrel is brewing between Chili and the Argentine Republic which it is feared will end in war.

It is said that the Leadville extension of the A. T. & S. F. railway from Pueblo will be broadgauge instead of narrowgauge.

It now turns out that the ingenious talks with Grant which have gone the rounds of the papers were written by Gen. Badeau.

Next Monday, September 2nd, the contracts for the construction of the railroad from Willow Springs to Las Vegas will be let.

Ex-Gov. McCook of Colorado states that he believes that the Democratic ticket in that state will be elected from the governor down.

Congress did not provide any oats for General Sherman's horse; and hence he rides in an ambulance across the green plains of New Mexico.

Dry weather at the time the corn was tasseling and forming ears, together with cut worms have done much injury to the crop in this portion of New Mexico.

In the recent election in Alabama 30,000 votes were polled for the democratic state ticket. There was no opposition. The legislature will be almost entirely democratic.

George A. Deitz, in a letter to the commissioner of agriculture, dated Sacramento July 22nd says:

We have the prospect of harvesting the largest crop of grapes ever grown in California and are making preparations to cure 1,000 tons of grapes into raisins.

The St. Louis Republican consider that city perfectly safe from yellow fever; and says although cases have been brought there from other places and the patients died, yet the disease has never been communicated to a resident. The attitude of St. Louis is too great for yellow fever.

Kearney does not think California was honestly counted for Hayes. He says Morton came down there and arranged a plot which was carried into effect and the votes of over 10,000 dead men were cast for Hayes at the Presidential election. He adds "elected by the votes of men whose fetid corpses were mouldering in the grave, is it any wonder that there is the smell of the whitened sepulchre about the fraudulent administration."

The Mesilla Valley Independent has passed into the hands of a new management. Hon. A. J. Fountain has been compelled to retire on account of continued sickness, and Mr. Thomas Casad from the multiplicity of business duties also retires. The notice of the change does not state whose muscular intellect will be brought into requisition to furnish the mental pabulum for the numerous readers of the journal, but it is inferred; as the name of John S. Crouch stands at the head, that he will do a portion of the work.

The Railroad Suit.

A special to the Pueblo Chieftain, Saturday last from Denver, states that the United States Circuit Court had finally decided the railway con-

troversy between the A. T. & S. F. and the D. & R. G. for the canon city route.

The court held that the A. T. & S. F. had the prior and expressive right. The D. & R. G. are perpetually enjoined from further interference with the work of the former company. This leaves no other outlet for the latter company but to build to Santa Fe.

The Denver & Rio Grande has increased the freight rates from Pueblo to the south and west to a frightful extent. The former rate for first class freight from Pueblo to El Moro per hundred was 90 cts. Now it is \$1.40. To Alamosa the former rate was \$1.40 now is \$1.98. All other classes of freight to intermediate points in like proportion. The Pueblo Chieftain says that within another year or two, all that will remain of the once prosperous Denver & Rio Grande will be two streaks of rust and the right of way as a monument of the stupidity and short-sightedness of its management.

Proper Subject of Inquiry.

While General Sherman is in New Mexico, he should devote a few spare moments to investigating the necessity or advantage of sending government freight to posts in New Mexico and Arizona by way of the narrow gauge railroad and Alamosa. He would find out that there is vast amount of humbug in that route as well as a considerable direct loss to the government. He should also inquire as to the propriety of spending money and labor in constructing a freight road from Alamosa to Santa Fe for the convenience of hauling government freight when great nature has provided roads on this side of the mountains that cannot be excelled.

The Mexican Question.

There may be some show of a war with Mexico growing out of the border difficulties. The administration insists on sending United States troops after marauding parties on Mexican soil. The public feeling in Mexico is very strongly opposed to allowing United States troops to cross the border; and President Diaz is compelled, if he expects to retain his popularity, to offer resistance. His plan is not to allow regular Mexican troops to meet United States soldiers in battle; but will permit the rural guards to bushwhack the invading forces. By this means he hopes to prevent an open rupture with the United States, while at the same time he satisfies the clamor of his own countrymen for resistance. Army officers think the administration is trying to get up a war.

The Seven River Tragedy.

We are allowed to copy from a private letter the following. It is from an eye witness and a reliable source:

"It was on the 16th, I think, that old man Beckwith, at his ranch, Seven Rivers, shot and killed his son-in-law, Wm. H. Johnson. His weapon was a double-barrelled shotgun, loaded heavily with slugs and pistol balls. The charge took effect in the shoulder, neck and breast, dislocating the neck, and killing the victim instantly. Beckwith then attempted to kill his son, John Beckwith, and was restrained with the greatest difficulty. During the struggle Wallace Olinger shot Beckwith through the cheek and nose with a revolver. Beckwith was arrested and started, under guard, to Fort Stanton. Family affairs the cause of the difficulty. It is reported that sheriff Peppin has resigned."

Kansas Politicians.

PRAIRIE CITY, KS., August 15th, 1878.

Editor Las Vegas GAZETTE: Kansas is "booming" this year; "every prospect pleases and only man is vile." Our people have arranged for a great camp meeting at Bismark Grove. Kansas products will be on exhibition. There will be cereals of all kinds, fruits of all kinds and politicians of all sizes from the littlest stamper at X roads P. O. to the aspirant for governor. Politics are chaotic. There will be three parties and tickets in the field, each representing the world, the church, the flesh and the devil. That old clerical half breed, D. P. Mitchell, is nominated for Governor on the greenback ticket. He is a cross between a horse

jockey and a Capuchin monk. Bro. Mitchell has been for years a presiding elder in the church, a dead beat, so to speak; and an agent and defender of the most offensive monopolies of this country; I mean the great untaxed publishing houses of the church. So you see what a fine, healthy, old sockdologer we have for a representative of the reform interests.

Old Col. W. A. Phillips was beaten in convention the other day for a renomination by Rev. President Anderson, of the Agricultural College. This beats h-l. Phillips, the best and ablest in our Kansas delegation beaten by a good smoker of the Presbyterian persuasion.

The present governor, Geo. T. Anthony, will hardly be renominated. He is too cold blooded and enterprising. He has made very good use of his patronage, but Ichabod is written upon his banner. John Martin of the Aitchison Champion will be nominated by the Republicans and will be the next governor of Kansas.

The Democrats have not made their nominations yet, but there is no doubt that they will put out their best men, such as Gen. Blair of Fort Scott, John Martin of Topeka and Fenton of Leavenworth. In view of a democratic triumph in 1880, they will present a square front from now out.

Kansas is cursed with the leprosy of political quacks and humbugs. A few men like Phillips and Robinson can grasp and master the great questions and issues; but the most of the politicians are of the Anthony, St. John style, party men, jobbers, seekers of office, howling temperance, anti-railroad, Sunday school or grange interest. So each candidate represents some interest, bovine, equine or asinine. But there seems to be no great, deep, honest conviction of heart or purpose to remedy the ills which today paralyze the strongest people on the globe. There are no statesmen like the demi-Gods of old, Hampden, Sydney, Cromwell; but little pot-house politicians go spluttering around the country in a superserviceable way.

Jimmy Watson the honest county treasurer of old Douglas county is short. Eh Gad! says Jimmy, I don't know what went with that money.

Payment of Mexican Awards.

The following official notice has this day been published by the Department of State:—

DEPARTMENT OF STATE, }
WASHINGTON, August 7, 1878. }
Notice is hereby given that an instalment will be paid at this Department on and after the 5th day of September, 1878, to parties entitled thereto on account of awards made in favor of citizens of the United States, by the Joint Commission of the United States and Mexico, for adjustment of claims, organized under the convention of July 4, 1869, between the two countries.

WILLIAM M. EVARTS,
Secretary of State.

Mr. H. V. Harris, at the government warehouse, attends to the forwarding of the government supplies from this point to the different government posts. Mr. E. B. Allen, of Leavenworth, is the government contractor, and Mr. Harris looks after his interests here. Two car-loads of flour were received yesterday, for Fort Bayard, Marcy and Wingate. The six months supply of provisions is just beginning to come in, and will amount to about 800,000 pounds. The amount of freight to be shipped by Mr. Allen for the year ending July 1st, 1879, will foot up to about 2,000,000 pounds.—Alamosa News.

New Bank at Kansas City.

Kansas City, Mo., Aug. 19.—It is definitely announced that a new bank with half a million capital will open here about the first of September. Plankinton & Armour, the great packing firm, and all the Boston capitalists interested in stock-yards here, the Union Depot and Ft. Scott Railroad company will furnish the capital. Mr. C. H. Prescott, now treasurer of the Ft. Scott road and Union Depot company, will be cashier. The new bank will occupy the elegant quarters of the late Mastin bank in the Merchants' exchange.

A Windfall.

Bismarck, Dakota, Aug. 17.—Jimmy Greenough, cock of steamers Helena, and great grandson of Sir James Greenough, of England received a letter to-day from his mother in Pittsburgh, Pa., saying that she had come in possession for him of \$2,500,000, Sir James' estate. Jimmy says he will serve his season on the upper Missouri, and accept the care of his mother's wealth regularly and orderly. He had been looking for it for some years.
